Accessories

Features/Description

The Lockbox is set with your own code that VitalCALL can store, and provide to emergency services should they need to attend your home following an emergency activation.

Accessory

Padlock Lockbox

Additional Features/Description (if available)

Installation by VitalCALL Agent

Optional: Installation by veteran or contact

Available with...

Can be provided on its own without a monitoring system. D9199 form and justification required.

Features/Description

A lockbox is a key safe that is easily fastened to a doorknob, fence, railing, flyscreen or pipe on the exterior of the home. It is secured a bit like a padlock. It can hold up to three keys and has a 4-6 digit personalised code that can be changed as frequently as you like to ensure your security.

Accessory

Wallmounted Lockbox
