THE LOCKBOX

What is a lockbox?

Our padlock version of the lockbox is a key safe that is easily fastened to a doorknob, fence, railing, flyscreen or pipe on the exterior of the home. It can hold up to three keys and/or access card(s) and has a 4 digit personalised code that can be changed as frequently as you like to ensure your security.

Why would I need a lockbox?

Having a spare set of house keys outside the home provides an easy and efficient method for emergency services, family, friends and neighbours to access your home if you require assistance.

VitalCALL can record the location of the lockbox as well as the doors the provided keys open and the 4 digit code. VitalCALL will inform emergency services of these details in a situation where they are called.

Key Features

- ✓ Personalised 4 digit combination that can be changed whenever needed
- ✓ Stores up to 3 keys and/or access swipe card
- ✓ Includes a user manual with instructions
- ✓ Made from steel
- ✓ Portable (Padlock model only)
